

CAVALIER
BREMWORTH

100% PURE NZ WOOL

Wool

Wool is nature's miracle fibre, keeping you warm in winter and cool in summer. Our extensive range of wool carpets are beautifully soft, hypoallergenic, fire resistant and naturally control moisture, helping to create a warm, dry and healthy home.

Why choose our wool carpet?

- Made in New Zealand from the highest grades of 100% sustainable, renewable and biodegradable NZ wool – recognised worldwide as the benchmark for purity, colour and quality.
- Can help improve indoor air quality – wool is a natural filter, low in Volatile Organic Compounds (VOCs) – the toxins that can cause breathing difficulties.
- Helps regulate humidity by absorbing moisture when the air is damp and releasing it when it's dry.
- Naturally fire resistant – difficult to ignite, slow to burn and far less toxic than synthetic carpet in a major fire.
- Naturally stain resistant – the structure of wool fibres keeps spills on the surface, making them easier to remove.
- Easy to clean and maintain – the moisture in wool carpet makes it anti-static, so it's less likely to attract dirt.

Siren[®]

Remarkable strength and exceptional beauty. Siren solution-dyed nylon carpet is created with ECONYL[®], a 100% regenerated fibre made entirely from recycled synthetics, including fishing nets recovered from oceans throughout the world. It's resilient, easy to clean and holds its colour beautifully.

Why choose Siren[®] carpet?

- Made from quality materials you can trust
- 100% ECONYL[®] StayClean solution-dyed nylon
- Soft to touch
- Enhanced stain protection is engineered into every fibre
- Fantastic colourfastness
- Siren is our most sustainable solution-dyed nylon carpet
- The production of ECONYL[®] fibre cuts back on CO² emissions by around 50% over regular synthetic yarns and in 2015, that equated to a saving of over 100,000 tonnes of CO² emissions
- Easy to maintain and clean
- Made in New Zealand

Valour[®]

Tough and tenacious yet soft and luxurious. Valour is our most durable solution-dyed nylon carpet, created with Itwist[®] - a high performance fibre made from 30% reclaimed synthetic materials. Valour features brilliant, long-lasting colour with enhanced stain protection engineered into every single fibre, making it the perfect solution for busy homes.

Why choose *Valour*[®] carpet?

- Made from quality materials you can trust
- 100% type 6,6 solution-dyed nylon
- One of the safer synthetic fibres should a house fire occur
- Soft to touch
- Tough and resilient
- Stain protection is built into every fibre
- Easy to maintain and clean
- Fantastic colourfastness
- Made in New Zealand

NZ's most trusted carpet brand

For the fifth year running, we've been voted by New Zealand as the country's most trusted carpet brand in the Reader's Digest Trusted Brands survey. Here's what one of our customers had to say:

*“Long-standing brand with
a reputation for quality”*

Key carpet buying tips

DURABILITY AND QUALITY ASSURANCE

On the back of your carpet sample, look for the Residential Extra Heavy Duty plus Stairs 6 Stars rating. This is awarded by the Australian Carpet Classification Scheme (ACCS) - an independent certification body. All Cavalier Bremworth carpets carry this rating.

FIBRE - WOOL VS SOLUTION-DYED NYLON (SDN)

It's a win/win really. Both wool and SDN fibres are hard wearing, luxurious underfoot and feature stain resistant properties. The biggest advantage of a SDN carpet is its ability to hold colour in areas exposed to long periods of direct sunlight. Wool on the other hand is hypoallergenic, fire resistant and helps to create a warm, dry and healthy home.

COLOUR

The appearance of colour can change in different environments, so it's important to view your chosen sample under daylight and artificial light before making your final decision. Keep in mind that darker colours can make a room appear smaller, whereas lighter colours can create a sense of spaciousness.
